Hunt Heroes Foundation-Essay Contest Winner

In November, Brightview, the nation's leading commercial landscape company donated 50 brand new bicycles to the Hunt Heroes Foundation to be given out to 25 lucky girls and 25 lucky boys as part of November's, Month of the Military Family. Participants submitted an essay on what it means to be a child of a military member. The essays were read and winners chosen by the Hunt Heroes Foundation Board. Out of the hundreds of entries around the country we are proud to say that Trisha May M. Pineda who lives in our Bangor community submitted an essay and was chosen as one of the winners. Congratulations Trisha.

Winter Weather
Reminder about what to do during these chilly months...

HUNT
ONE MISSION. ONE COMMUNITY.

Whether you will be home or away please be sure to follow these tips:

Leave thermostat set at 60° or higher, disconnect hoses and cover outside faucets with insulated covers, replace furnace filters several times a year to help with efficiency

When (if) the snow hits our area and reaches a depth of two inches or more we will plow the streets within the housing areas. We do not clear the sidewalks or driveways (residents need to clear their own). The streets leading to housing will be plowed by NAVFAC crews.

LEAVE YOUR THERMOSTAT SET TO 60°
TO KEEP PIPES FROM FREEZING

Garbage/Recycling Holiday Schedule

Waste Management observes New Year's Day, meaning that there will be no trash or recycling collection on this day. Weekday holidays will delay collection by one day for the remainder of the week. For example, because New Year's Day falls on a Tuesday those customers whose trash is normally collected on Tuesday will have pickup on Wednesday instead and those whose collection is normally on Wednesday will receive trash service on Thursday.

COMMUNITY REMINDERS

OUTDOOR FAUCET COVERS - PUT 'EM ON

Winter weather and freezing temperatures will be here before we know it. Help get your home ready for Old Man Winter by disconnecting hoses and covering outside faucets with insulated covers. If you don't already have a faucet cover handy, come on down to the maintenance shop - we've got them for free! And, help ensure your furnace is operating at tip-top shape by replacing filters often. Not only does replacing the filter help your furnace run more efficiently it can also help reduce maintenance issues. Free furnace filters are available at maintenance.

If you plan on being away from home during these chilly months be sure to leave heat set to 60° to help avoid returning home to frozen/busted pipes.
